

pH/ORP Service Support Kit

Compilation of equipment in a robust instrument case to assist the field support for pH / ORP measurement & control equipment.

pH Simulator, Model 602

- Easy to use, low cost & pocket size (one hand operation) simulator for pH 4, 7 & 10
- Quick way for checking pH instruments performance
- Bright red LED indicators
- High impedance (hi OHM) mode to simulate an electrode
- Accessories: 9V battery, Manual & Calibration wire

pH/mV/°C Handheld Tester, Model MP-103

- pH & Temperature simultaneous display
- Simple calibration (calibration value can be adjusted as needed)
- Indicate Percentage of Slope (PTS) after calibration
- Low battery consumption indicator
- 10 min Auto shut off
- Accessories: pH electrode, Temperature probe, Buffer solutions 4 & 7, 9V battery, Manual & Calibration wire (Optional: ORP probe)

Cables & Adaptors

- BNC to terminal Adaptor Cable
- BNC Adaptor Fitting

ABS Instrument Case

- Ribbed ABS construction
- Stainless steel hinge pins
- O-Ring seals & very solid catches
